

STEUBEN COUNTY BOARD OF COMMISSIONERS MEETING  
May 4, 2015

The Steuben County Commissioners met at 1:00 p.m. on Monday, May 4, 2015, in the Commissioners' Room of the Steuben Community Center. Present this day were Commissioners Ronald L. Smith, James Crowl and Lynne Liechty. Also present were Rick Shipe, County Council President, Ruth Beer, County Council Vice President, Donald Stuckey, County Attorney and Kim Koomler, Steuben County Auditor.

Timothy Kunde, GIS Coordinator, came to the Commissioners for permission to attend the IGIC's 2015 Annual GIS Conference in Bloomington, Indiana on May 12 and 13, 2015. Mr. Kunde further requested to use the Commissioners' credit card to reserve a hotel for that conference. James Crowl made a motion to approve the request to attend the IGIC 2015 Annual GIS Conference. Lynne Liechty seconded that motion and the motion carried with three (3) ayes.

Timothy Kunde also reported to the Commissioners that the aerial photos have been completed; however it will take some time to process. Mr. Kunde stated that he anticipates the images will be processed sometime this summer.

Ken Herceg, Donohue-Herceg, came to the Commissioners regarding the canceled contract for the County Park Community Center/FEMA Shelter. Mr. Herceg thanked the Commissioners for past business dealings and hopes that there are possibilities in the future to work together

Eric Ditmars, County Park Superintendent, came to the Commissioners with a contract for the Renaissance Faire. Mr. Ditmars stated that no changes have been made and the contract is the same as previous years including \$1,200.00 for the rental and \$150.00 security deposit. Lynne Liechty made a motion to approve the contract for the Renaissance Faire. James Crowl seconded that motion and the motion carried with three (3) ayes.

Eric Ditmars also submitted two (2) quotes for dead wooding trees and stump removal at the County Park. Mr. Ditmars stated that there is one large dead tree that needs to be removed as soon as possible due to the danger it causes. James Crowl made a motion to accept the quote from Sevits Tree Service in the amount of \$175.00 an hour. Lynne Liechty seconded that motion and the motion carried with three (3) ayes. Ronald Smith suggested to save Sevits' time, they could haul the tree scraps over to the compost site to be recycled and composted.

Mr. Ditmars reported that the I-69 right of way re-vegetation was not accepted and it needs to be resolved. Eric Ditmars stated that there is gravel on top, it does not hold any moisture and the grass dries out. The State wants grass to be grown there so topsoil and hydro seed needs to be brought in. Ronald Smith suggested when the Highway Department is birming, they use some of the leftover material for the re-vegetation.

Eric Ditmars submitted dumpster contracts from Republic Services, for the Steuben County Park and the Clear Lake Park, to the Commissioners. Lynne Liechty made a motion to approve the contracts with Republic Services. James Crowl seconded that motion and the motion carried with three (3) ayes.

Kayleen Hart, Steuben County Soil and Water, came to the Commissioners to introduce a new employee, Janelle Myer. Ms. Myer stated that she's originally from northwest Indiana but has lived here since 2012. She stated that she has degrees in Fisheries and Aquatic Sciences and Wildlife Sciences from Purdue University. Ms. Myer stated that most of her career has been with the DNR, Division of Fish and Wildlife. She stated she was also the Assistant Lake Michigan Fisheries Biologist from 1994-2012. Ms. Myer said when she moved to Steuben County she started working as a temporary employee with Pokagon State Park.

James Crowl made a motion to approve the claims submitted for payment this day totaling \$588,225.29. Lynne Liechty seconded that motion and the motion carried with three (3) ayes.

Ronald Smith discussed dumpsters that are to be placed in Pleasant Lake with Elten Powers. Ronald Smith stated that he was told that the Lion's Club of Pleasant Lake have planned to place dumpsters in Pleasant Lake and last time that project took place the dumpsters were overflowing. Ronald Smith stated that he suggested doing a

May 4, 2015 Commissioners' Meeting Continued

city-wide pick up instead; however, they still plan on placing the dumpsters this year. Elten Powers stated that the dumpsters will be there Friday, May 15 through Monday, May 18.

Lynne Liechty made a motion to approve the Commissioners' Meeting minutes from the meeting held April 20, 2015. James Crowl seconded that motion and the motion carried with three (3) ayes.

The Commissioners signed the minutes from the April 6, 2015, Commissioners' Meeting, which were approved at the previous meeting.

Kim Koomler, Auditor, and Erin Wray, Commissioners' Assistant, asked the Commissioners if they would like to have budget requests scheduled during a regularly scheduled meeting or if they would like an additional meeting scheduled. The Commissioners requested that an additional meeting be scheduled so a regularly scheduled meeting is not taken up completely by budget requests. Kim Koomler stated that not only will the departments be scheduled, the allocation recipients will be scheduled as well. The Commissioners agreed that an additional meeting would work better to accommodate the budget requests. Kim Koomler and Erin Wray are to work together to get a meeting scheduled and public notice posted.

The Commissioners received correspondence on the Humane Shelter stating that anything over and above the already approved \$45,000.00 (\$18,000.00 allocation, \$27,000.00 additional approved by County Council) needed to be approved by the Commissioners and taken to County Council. James Crowl stated that the original maximum amount approved by Commissioners was near \$62,000.00. The new request won't go to Council until June and because of that, he said that he believed a total amount of around \$40,000.00 would be the appropriate amount. James Crowl stated that a full year's budget should not be given in June.

Lynne Liechty stated that her original thought was that since it hasn't gone through as the County had hoped it would, she would make a motion for a total amount of \$55,000.00. Kim Koomler stated that right now \$45,000.00 is already appropriated and available so anything over and above that is what she needs to have to publish in the paper. Lynne Liechty said that since there is \$45,000.00 already appropriated, she would go \$10,000.00 over that for a total amount of \$55,000.00.

Lynne Liechty made a motion to request an additional \$10,000.00, to be added to the already appropriated \$45,000.00, and to take that request to County Council. Lynne Liechty also stated that a new contract will need to be drafted. Lynne Liechty stated that she wants this matter to go to Council once again and she feels at this point the issue needs to be resolved.

James Crowl stated that he wants to reduce the total amount to \$40,000.00 for the rest of the year.

Ronald Smith stated that he is stepping aside as the Chair and he seconded the motion made by Lynne Liechty. The motion carried with two (2) ayes and one (1) nay.

Bill Schmidt asked where the additional funds will come from. The Commissioners stated that the funds will be coming from the CEDIT fund and are aware that the EDIT Plan will need to be amended if Council appropriates the additional funds.

Vicky Meek, EMS, came to the Commissioners to request permission to expand her service contract with emscharts to include a module that would allow utilization of iPads for charting and recording. Ms. Meek stated that it will cost an additional \$2,550.00 for set up and annual fee. James Crowl made a motion to approve the service contract expansion. Lynne Liechty seconded that motion and the motion carried with three (3) ayes.

Gary Fair, Community Center Maintenance, came to the Commissioners with several updates on repairs and projects.

Mr. Fair updated the Commissioners on the construction of the new parking lot at the corner of Martha Street and Wall Street. He stated that it was originally in the 2014 budget and felt that the project needed to be moved on before it increased in price. Mr. Fair said that it will cost approximately \$38,400.00 for the construction of the parking lot with add-ons being the ADA signs, posts and bases at \$350.00 plus shipping and another \$350.00

for the striping of the lot and the addition of handicap parking spots. Mr. Fair stated that this quote does not include the lights that he would like NIPSCO to install for dusk to dawn like the other parking lots have. James Crowl requested that the other more important repairs be addressed before money is spent on a new parking lot.

Mr. Fair also informed the Commissioners that he has been in contact with Luther Mock from Four Square Solutions and they have not yet done the water testing. Mr. Mock has been readmitted to the hospital and as soon as he is able to be here to do the water testing, it will be done. Mr. Fair stated that the more serious areas include the Health Department on the east side, Surveyor's office on the south side, Purdue Extension and Council on Aging on the south side.

Gary Fair stated that he has one quote from Everdry out of Fort Wayne for the foundation repairs and he does not want to disclose the dollar amount at this time because he is trying to get another quote. Mr. Fair stated that the budgeted amount of \$70,000.00 will be close to the actual cost. Mr. Fair said that the west wall is priority for 2015 and that does include the drain to the street.

Gary Fair stated that the MSD Tower Chiller is on order and should be delivered in about five (5) weeks. He stated that project is not to exceed \$70,000.00 and that includes the emergency air conditioning for two (2) weeks at a cost of \$6,000.00 per week.

Mr. Fair also informed the Commissioners that the grass at the Old County Home needs to be mowed and that maintenance does not have the correct equipment to do so. The Commissioners directed Gary to check with local lawn care companies to get the grass mowed.

James Crowl stated that the Commissioners are looking at a total of about \$100,000.00 for the MSD Tower air conditioning and digging up the wall on the west side, the windows repair cost is unknown but he estimates \$10,000.00-\$20,000.00 and the new parking lot will cost approximately \$40,000.00.

Mr. Fair updated the Commissioners on the additional door installation in the A Suite for the Commissioners' new office space. He stated that he has received two (2) quotes one in the amount of \$2,285.00 and another in the amount of \$4,177.00. The Commissioners decided to put that project on hold.

Gary Fair said that an oak cabinet that was taken from another area, was to be installed, and that cost is to be taken from his maintenance fund. Mr. Fair had a quote in the amount of \$500.00 and another quote in the amount of \$375.00. James Crowl made a motion to approve the installation of the oak cabinet in the amount of \$375.00. Lynne Liechty seconded that motion and the motion carried with three (3) ayes.

James Crowl stated that as bad as a new parking lot is needed right now, until a second quote is received on the outside wall and the cost of the window repair is determined, the new parking lot needs to be put on hold another month so the other repair projects are figured out. Gary Fair stated that he will bring the parking lot issue to the Commissioners the first meeting of June.

Ronald Smith asked if the replacement of the air conditioning in the MSD Tower would make the transaction of ownership more viable. Mr. Fair stated that is the case and that he believes Dr. Wilson made a motion to that effect and that they would be willing to go 50% on the cost of the new air conditioning if the transaction was to take place.

Gary Fair also came to the Commissioners with a quote to repair the Health Department Shot Room. He stated that there was a drain leak due to the freezing and thawing. He stated that he has received one quote and is waiting for another to come through. Mr. Fair stated that the first quote that came in was very acceptable to the insurance; however, he will have another quote by the next Commissioners' meeting. Gary stated that there would be a \$1,000.00 deductible paid to the insurance. Ronald Smith advised that no decision will be made until the second quote is received.

Ronald Smith asked Mr. Fair if he has talked to Koorsen regarding the fire suppressing, etc., with MSD if they do purchase the tower. Mr. Fair stated that he has not talked to Koorsen about that yet but will do so if needed.

William King, resident of 75 Lane 201BA Lake George, came to the Commissioners regarding an alley vacation that was done several years ago at Lake George. Mr. King gave the Commissioners a survey to review so they could see where the alley was vacated. He stated that he would like to petition the Commissioners to revisit the ruling concerning the alley vacation and easement creation and to reincorporate the rights previously granted by the Court.

William King stated that Mr. Roady petitioned the Board of Planning and Zoning to vacate the public alley next to his home because he had purchased the property next door and wanted to add on to his home. Mr. King stated that several residents came to the Planning and Zoning meeting and objected and the Board of Planning and Zoning did not approve Mr. Roady's request, they just sent it on to the Commissioners.

Donald Stuckey asked Mr. King what the problem with the new easement was. Mr. King stated when the new easement was created, the rights the neighbors had, were taken away. He further stated that all the restrictions Mr. Roady wanted for himself were added and there have been many problems. Mr. King said that Mr. Roady is not tearing down the house to add on to his own home, he's wanting to sell it and is now letting people park their cars on the easement.

James Crowl said that the alley was moved from one side of the lot to the other side of the lot because Mr. Roady had bought the real estate on the other side of the alley and wanted to add on to his home. Most of the residents were okay with the moving of the alley if all of the same rights were given; however, the same rights of the old alley were not given for the new alley.

Mr. King stated that some of the limitations of the new easement include no placing of objects on easement, no motorized vehicles, no watercraft piers, no picnic tables, grills or other items of tangible personal property, no campfires, no gatherings of any nature, no electronic equipment that would be used in a manner that disturbs the quiet and tranquility of the easement area. Donald Stuckey stated that things cannot be placed on an easement.

James Crowl asked Bill Schmidt if he recalled any of these items on the original agreement. Mr. Schmidt stated that he doesn't remember the Plan Commission agreeing to move the alley. Donald Stuckey stated that it was sent to the Commissioners with a neutral recommendation. Frank Charlton said that these regulations are typically on all easements and he believes that Mr. King is correct that it was stated all of the language would be the same, other than that, all of the restrictions apply to every easement in the County.

James Crowl stated that this was supposed to be done according to law, move it from one side of the lot to the other. Mr. King stated that the residents were fine with that, no docks on the easement, keep it clear so people can swim and no cars, no sewer grinder pumps that were put there for the house that was not torn down.

James Crowl made a recommendation that this issue be sent back to the Plan Commission. Bill Schmidt stated that it has already been done and was done back in 2012. Mr. Roady stated that it has been done and over with and he has already sold the property next to his home so 10 feet of the vacated alleyway went to the person that purchased that property. Donald Stuckey stated that Mr. Roady came to the Commissioners saying that he was going to build on that property. Mr. Roady stated that he did not build. Donald Stuckey said that the whole premise of the granting of the vacation of the alleyway was that Mr. Roady was going to build and therefore he needed the easement vacated. Mr. Stuckey asked Mr. Roady if he knew that he was not going to build when he came to the Commissioners. Mr. Roady stated that they were going to build on that property but it just wasn't able to happen. Donald Stuckey stated that he is going to have to look at precedent regarding that. Bill Schmidt said that he believes that there was some pressure from the neighborhood and Mr. Roady decided it was no place that he wanted to live.

Donald Stuckey stated that from his reading of the easement, no one has the right to park cars in the easement, etc., the whole purpose of the easement is to keep it open for ingress and egress. The original court case prohibited people from placing picnic tables, etc., in the easement and Mr. Stuckey thinks that it is an enforcement issue and the residents have the right to an injunction if someone is violating the terms of the easement.

Donald Stuckey stated that the only remedy is to go to Court and seek an injunction.

A person in the audience addressed the Commissioners and stated that one of her new neighbors were taking family pictures in front of the lake and Mr. Roady came out and informed them, with a highlighted copy of the easement, that they were not allowed to take pictures and it was only for ingress and egress. Mr. Stuckey stated that not only is that inconsistent with his reading of the easement, it is just silly for someone to do that. The audience member stated that is why they are here today, because that isn't right to do that to neighbors.

Ronald Smith stated that the Commissioners cannot resolve this issue, but if Mr. King chooses to pursue it, there are specific avenues that can be taken in Court by means of an injunction.

Karen Shelton, Kiwanis Program Chair, submitted a letter to the Commissioners requesting permission to hold the Annual Music Americana Patriotic Program at the Dale Hughes Auditorium on Friday, July 3, 2015, from 5:00-9:00 p.m. Lynne Liechty made a motion to approve the request to hold the Americana Patriotic Program at the Dale Hughes Auditorium on Friday, July 3, 2015. James Crowl seconded that motion and the motion carried with three (3) ayes.

Al Knisely, Courthouse Maintenance, submitted a proposal from Koorsen for the three (3) fire extinguisher cabinets that are needed for the Highway Department, in the amount of \$510.00. James Crowl made a motion to approve the proposal from Koorsen. Lynne Liechty seconded that motion and the motion carried with three (3) ayes.

Steuben County EMS submitted the Commissioner Closeouts in the amount of \$1,875.50 and Commissioner Writeoffs in the amount of \$152,064.99, for approval. James Crowl made a motion to approve both the Closeouts and the Writeoffs for a total amount of \$153,940.49. Lynne Liechty seconded that motion and the motion carried with three (3) ayes.

Jennifer Sharkey, County Engineer, submitted an invoice for inspection services from March which was submitted with the claims.

Ms. Sharkey stated that for Maple Street she received an invoice and 91% of the design is completed. She reported that she is still coordinating with the property on the corner to discuss their driveway placement and once that is resolved the consultant can move forward with the final design.

Ms. Sharkey reported that the 200 N/200 W project should start June 1, 2015. She stated that at the next Commissioners' Meeting she will have a request for a change order combining three (3) of the maintenance and traffic phases into one (1) phase. She stated currently there are five (5) separate phases of construction to maintain traffic throughout that intersection. Phase four (4) was the only one that had a 30 day closure associated with it but the contractor is proposing doing phases three (3), four (4) and five (5) during that 30 day closure.

Ms. Sharkey also reported that there has been some changes to the signal design after the review by the contractor. Some discrepancies of the design were found that would not work in the field.

Jennifer Sharkey stated that an invoice was received by Structurepoint for the 200 N/SR 827 Project. Ms. Sharkey reported that she will have those funds appropriated at the June meeting due to the line items being set up but no funds were appropriated in those line items.

Ms. Sharkey submitted a bridge maintenance schedule for 2015 to show what work is being done on the bridges. She stated that she developed a ten (10) year bridge plan that is available for internal review at this time.

Jennifer Sharkey said that the bridge lighting for the Jimmerson Lake/Lake James bridge needs to be discussed and decided upon. Bill Schmidt addressed the Commissioners and asked if the project is going to be canceled. Mr. Schmidt said that they have been operating as the project was moving forward; however, he understands that the Commissioners have the right to change their minds at any time. Bill Schmidt stated that they would like to know if the Commissioners want to move forward or listen to another proposal. Mr. Schmidt said that he did not realize the expense of the replacement of the batteries and asked if the Commissioners would prefer electric over solar power.

Bill Schmidt said that he feels that area is fairly unique and probably has the highest concentration of business and walking to the public as any unincorporated area in the county and he feels that something needs to be done. Mr. Schmidt thinks that solar lights will provide a cheaper initial installation cost, but through the entire life of the project he doesn't feel it would be any more expensive one way or the other. He said he understands that there is nowhere else in the County where the County pays for road lights and that this would truly be a unique location in the County.

Bill Schmidt said that the design of the lights and the installation of the lights is paid for but then they want to turn it over to the County for the maintenance. Mr. Schmidt said that the people paying for this is the Mayor's Caucus and Jimmerson Lake was approached, because Lake James is not a 501(3)(c), about being the pass through so people can get tax reductions for their contributions.

Bill Schmidt asked if the County has an obligation to provide light to an area that is a severe safety issue. Ronald Smith stated that since it falls under the County's jurisdictional area, perhaps the County does have the responsibility to provide the safety for individuals; however, any Board that succeeds this one, has the right to alter that and take action. Rick Shipe, County Council President, stated that he has a concern that the Commissioners made it clear that they are not in charge of any County lighting. Councilman Shipe stated that he feels that if the Commissioners accept this deal they are in essence responsible for lighting in the county.

James Crowl stated that the Commission Board is in favor of lighting the bridge; however, he would like to have figures to find out which one would be the most economical. Bill Schmidt stated that he will take back any proposal the Commissioners give and try to work it out with Frank Baade.

James Crowl made a motion to approve the use of solar lights and pay for the replacement of the batteries when needed. Lynne Liechty seconded that motion and the motion carried with three (3) ayes.

Jennifer Sharkey submitted the Bike Trail reimbursement paperwork for the claim that was submitted and approved. The reimbursement paperwork is in the amount of \$8,445.02 which is an 80% reimbursement. Lynne Liechty made a motion to approve the Bike Trail reimbursement paperwork. James Crowl seconded that motion and the motion carried with three (3) ayes.

Emmett Heller requested approval to start ten (10) hour days. James Crowl made a motion to allow the Highway Department to start working ten (10) hour days. Lynne Liechty seconded that motion and the motion carried with three (3) ayes.

Mr. Heller stated that last week they made 1200 Ton of Pug and 400 Ton of Cold Patch. Emmett Heller also updated the Commissioners on the status of the other Highway Department projects.

Mr. Heller stated that he and Jennifer Sharkey had a meeting with the Holman's and Mr. Schmucker regarding 550 E. It was decided that they would call the Highway Department so the Highway Department would have the opportunity to help with the route and they knew when it was coming.

James Crowl told Emmett Heller that when they are birming, at the end of the day, bring some back and put on the federal ground on I-69 where it was re-seeded last fall. James Crowl said that he thinks six (6) or seven (7) loads should take care of it and they can pile the dirt where a front loader can dump them over the fence.

Emmett Heller submitted quotes on Tandem Trucks. Mr. Heller stated that they are having problems with the International Engines. He said that there is a lot of information in the packet regarding warranty work that has been done. Emmett Heller said that they are considering purchasing a Western Star Chassis with a Cummins Engine from Stoops; however, the Highway Department would like to do the build-up. Having the Highway Department do their own building up, could save the County \$10,000.00. Emmett Heller said to make that purchase, they are looking at approximately \$160,850.00. James Crowl said that the Commissioners will do some research and make a decision at the next meeting.

Rick Shipe, County Council President stated that it has come to his attention that now people are being sent to the County Highway Department for sign offs for permits. He wanted to know why another step is being added. Vina Conti, Plan Commission, said that it was always in effect; however, it was never enforced.

Elten Powers, Board of Aviation Secretary, stated that the Board of Commissioners have listened to concerns about the airport for quite some time. Mr. Powers said that the creation of a Study Committee for the airport has been discussed. That Study Committee would be made up of two (2) members from the Aviation Board, one (1) member of the County Commissioners, one (1) member of the County Council, two (2) members of the Pilot's Club and someone who owns a hangar. Mr. Powers said that way questions and concerns can be laid out and addressed so they are not continually coming up for discussion. He stated that the Airport Board does not want to keep coming to the Commissioners for funds and that issue needs to be looked at as well. Mr. Powers suggested putting a time line on this matter, get together, figure out the questions that need answered, who can best answer the questions and come up with a report and possibly some recommendations of what can be done to address some of the issues at hand.

Ronald Smith reported that a design for the County Park Community Building is close to being finished. He stated that the designs that were purchase from Donohue/Herceg were being used and a new organization by the name of WKM & Associates has been working on the final design. Ronald Smith stated that a price has not yet been determined and a maximum amount needs to be set for this project. He stated that the project will be put to bid mid- summer with construction hopefully starting in the fall. Frank Charlton stated that they are just in a preliminary drawing right now. James Crowl made a motion to appropriate a maximum of \$10,000.00 for the project. Lynne Liechty seconded that motion and the motion carried with three (3) ayes.

Ken Herceg reported that on the canceled project with Donohue/Herceg, there was a glitch in the survey that did not show the forced main location. When that was corrected it was in a bad place causing the construction of the building to be shifted about 160 feet. Mr. Herceg wanted to be sure that Donohue/Herceg will not be held liable in any way for not having shown that 16" forced main. Mr. Herceg requested a release from the Commissioners so he can pay the surveyor. Ronald Smith stated that if the FEMA shelter was still being constructed there probably would be an issue; however, since that is not happening he can't see where it would be an issue now. Lynne Liechty made a motion to waive liability. James Crowl seconded that motion and the motion carried with three (3) ayes.

Frank Charlton, Plan Commission, discussed the CAFO meeting that the Board of Zoning Appeals has scheduled. Mr. Charlton stated that due to a glitch in emails, the deadline for publication was missed and won't be advertised ten (10) days before the meeting. Donald Stuckey stated that the 10 day notice cannot be waived. Bill Schmidt suggested having the meeting in June so everyone can arrange their schedules due to each side having expert witnesses appear for the meeting. Donald Stuckey stated that the Petitioner has a right to be heard. Vina Conti, Plan Commission, stated that the Petitioner does have witnesses coming in for the meeting as well. Donald Stuckey stated that he is going to make some calls regarding this issue to try to figure out when to reschedule the meeting.

Frank Charlton requested permission to take the CAFO meeting as long as possible. Mr. Charlton stated that the BZA and Plan Commission would be willing to pay for maintenance overtime. He stated that they would like to close this matter out in one night instead of dragging it out to two (2) meetings. Frank Charlton stated that they are going to start the meeting at 6:00 p.m. instead of 7:00 p.m. in hopes to finish the meeting in 3 ½ hours. Donald Stuckey reported that they are going to do everything in their power to get the meeting finished in 3 ½ hours. James Crowl made a motion to permit the BZA and Plan Commission to stay over the 3 ½ hours for the CAFO meeting, if needed and the Plan Commission shall be responsible for the extra costs for staying over. Lynne Liechty seconded that motion and the motion carried with three (3) ayes.

The Commissioners received the following correspondence: AIC re: AIC News - Session wrap up; John Sampson re: Regional Cities; West Otter Lake Association re: Spring Meeting & Donations; Rodney Renkenberger – Maumee River Basin re: Funding request; NACo re: Washington Watch April 24; AIC re: eNews; Schneider Corp re: New Beacon Site; IACC re: INDOT Title VI; Mediacom re: local cable television changes; ICMA re: Local Government Sustainability Practices – 2015 – Survey; IACC re: Update; Schneider Corp re: Beacon New
