

STEUBEN COUNTY BOARD OF COMMISSIONERS MEETING
July 5, 2016

The Steuben County Commissioners met at 1:00 p.m. on Tuesday, July 5, 2016, in the Commissioners' Room of the Steuben County Community Center. Present this day were Commissioners Ronald Smith and Lynne Liechty. Also present were Donald Stuckey, County Attorney and Kim Koomler, Steuben County Auditor.

Lynne Liechty made a motion to approve the claims submitted for payment this day totaling \$1,568,035.86. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Kim Koomler, Auditor and Laurie Stoy, Treasurer, submitted the Monthly Comparison Report for approval. Lynne Liechty made a motion to approve the Monthly Comparison Report. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Lynne Liechty made a motion to approve the minutes from the Commissioners' Meeting on June 6, 2016. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Lynne Liechty made a motion to approve the minutes from the Commissioners' Meeting on May 23, 2016. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Lori Hickey, First Deputy Auditor, submitted miscellaneous claims for approval. Lynne Liechty made a motion to approve the miscellaneous claims. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Koorsen Fire & Security submitted a contract for the Steuben County Park extinguishers in the amount of \$296.00. Lynne Liechty requested that they update the customer name to be Steuben County Park. Donald Stuckey reviewed the contract and he said that there are a couple terms that need to be removed before it is signed and approved. Lynne Liechty made a motion to remove the terms in question and table the contract for now. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Leroy Steury submitted Change Order #5 in the amount of \$48,117.00 for the limestone Event Center parking lot. Lynne Liechty made a motion to approve Change Order #5. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Kylee Harris, Assistant County Park Superintendent, asked the Commissioners for guidance on the repairs at the old exhibit hall after it was broken into. She said that a window pane and a door were damaged and she wanted to know if the Commissioners would like those fixed or since the exhibit hall is no longer being used, if the Commissioners wanted them boarded up. Lynne Liechty made a motion to repair the damages and not board them up. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Tami Mosier, Purdue Extension, asked for clarification on who is to be responsible for the maintenance of the Event Center bathrooms during the 4-H Fair. Lynne Liechty made a motion that Purdue Extension shall be responsible for the maintenance of the Event Center bathrooms during the 4-H Fair. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Donald Stuckey updated the Commissioners on a pending lawsuit regarding a disputed area on Lake Gage between the road and water and the ownership of that area. Lynne Liechty made a motion to allow Mr. Stuckey to file the appropriate pleadings. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Will Gooden, 120 Lane 260B Crooked Lake, came to the Commissioners with a request to raise and widen the bridge between second and third basin of Crooked Lake. Mr. Gooden stated that it is a navigable passage; however, there is personal and public safety concerns with how the bridge stands today. He said if the bridge was raised and widened, it would eliminate all of the potential problems because it would allow for boat traffic to navigate uninterrupted between the two (2) sections of lake and underneath the bridge. Some boats can barely make it under the bridge and there is very little clearance. Mr. Gooden said that during busy times you get boats stacking

up or having to reverse quickly because two (2) boats cannot pass under the bridge at once and you cannot see if there are boats coming from the other side until they are both very close.

Jennifer Sharkey stated that she was approached by Mr. Gooden in the past and the structure of the bridge and the vehicular transportation is all acceptable at this time; however, if improvements of waterway navigation was needed then there would be some modifications needed. Ms. Sharkey said that American Structurepoint just finished the second round of bridge inspections and the sufficiency rating is above the federal aid threshold so federal funds couldn't be applied. Ms. Sharkey said that she could check to see if there are any waterway improvement grants available.

Ronald Smith stated that a consultant would have to be hired to do an assessment of the bridge. Mr. Gooden stated that he understands and he would request that a cost assessment and feasibility assessment be considered. The Commissioners tabled the issue and asked Mr. Gooden to stay in touch with them regarding this issue.

Douglas Johnson, Historical Mapping Society, came to the Commissioners seeking permission to use the GIS aerial photographs of the lakes for historical maps he creates. Mr. Johnson stated that the aerial photographs have much more detail in them and they would help him obtain that detail in his maps. Lynne Liechty made a motion to give Mr. Johnson permission to use the GIS aerial photographs. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Jody Kinsey, USI and Karla Linville, ProClaim Plus, came to the Commissioners with an insurance update and possible changes for 2017. Ms. Kinsey stated that she is going to discuss the possibility of moving the plan from a dual choice of Parkview and Lutheran to a single hospital system and what that can do to the plan financially. She went to both hospital systems and asked for them to compare the claims from Steuben County so they could give numbers as if all claims were filed through their system instead of having them split out. Ms. Kinsey said that bottom line is that they get aggressive when it comes to the available discounts.

Jody Kinsey stated that Lutheran was willing to negotiate a special program and it would reduce the claims paid to 51.46%, or approximately \$700,000.00 claims savings to the plan. Lutheran does have plan requirements and they are requiring that a difference of in and out of network be at least 50% lower. Today it is currently 80/20 after deductible is met in network, they would want that benefit for out of network to go down to 30% and it's currently 60%. Ms. Kinsey also stated that the plan would lose grandfather status as well, so the plan would have to comply with the Affordable Care Act Law and the biggest change would be in the preventative care benefits. Ms. Kinsey stated that Lutheran is very aggressive in their hospital discounts under this plan, so if there are a lot of hospital claims in the future, that will amount to bigger savings.

Jody Kinsey said that as of today, changing to the Lutheran Plan would cause the most disruption to the employees because there are 162 employees enrolled on the Parkview Plan and only 75 on the Lutheran Plan.

Ms. Kinsey stated that if the County would go to a Parkview only plan, it would reduce the claims to 56.9%, or approximately \$450,000.00 - \$500,000.00 claims savings to the plan. She said that they would require some deductible changes between in and out of network and some out of out of pocket changes between in and out of network. Ms. Kinsey stated that there is an unlimited out of pocket for out of network and there is a three (3) tier benefits system. Jody Kinsey said that Parkview is more aggressive when it comes to physician claims.

Lynne Liechty asked if Steuben County sees a larger amount claims in hospital claims or in physician claims. Karla Linville stated that in the past year there has been almost \$2 Million in hospital charges and there were almost \$2 Million in physician charges so it is almost a wash. It was stated that Cameron Memorial Hospital would be in network on either plan. Karla Linville stated that it is only an out of network claim when the employee chooses to go out of network, when emergencies happen during traveling, it is also considered in network. Ronald Smith asked if the amount of employees in a particular system should drive the decision of which network to choose. Lynne Liechty said that the best plan overall has to be chosen. Ronald Smith said that it will be put back on the meeting agenda for consideration at the appropriate time.

Jennifer Sharkey, County Engineer, submitted Earthcom Utility Permits #2769 and #2770 for approval. Lynne Liechty made a motion to approve those permits. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Ms. Sharkey said that a final inspection and recommendation was signed for the 200 W intersection project; however, the date had to be extended because the notice of termination wasn't received until recently. She submitted a new recommendation with the proper date of May 17, 2016. Lynne Liechty made a motion to sign the recommendation. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Jennifer Sharkey clarified a change order on the Bike Trail. Ms. Sharkey said that at the last meeting, she had stated that the change order was in the amount of \$86,481.56; however, there was a mistake on the change order and the correct amount is actually \$28,764.79. Ms. Sharkey also submitted a reimbursement voucher for \$836.75 which is the 80% reimbursement from the State. Lynne Liechty made a motion to sign the reimbursement voucher. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Ms. Sharkey stated that a ribbon cutting event is planned for the Maple Street Extension on Friday, July 8, 2016, at 1:00 and it will be in conjunction with dedicating the shovel ready site. Ms. Sharkey said that it will be at the east end of the project.

Ms. Sharkey stated that stage II design was sent to INDOT on the 200 N/827 intersection project for their review on June 1. She also submitted a reimbursement voucher in the amount of \$5,833.75. Lynne Liechty made a motion to approve the reimbursement voucher. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Jennifer Sharkey said that she and Emmett Heller are still gathering information regarding the lights on Old 27. She said that they are waiting on an updated cost estimate because the last estimate that they received was approximately \$11,000.00 due to the complicated circuitry. Ms. Sharkey said that there are other additional costs that INDOT is responsible for above and beyond the county portion and the toll road will also have some funds involved. Emmett Heller said that a part of that \$11,000.00 includes ten (10) new light heads because since they have been turned off for so long, they wouldn't come back on.

Ms. Sharkey stated that she gave a presentation to INDOT on June 28 on 200 N Phase II. She said that they are scheduled to announce winners of the federal funds in mid-October. Ms. Sharkey said that she put it in the budget for 2017 so work can begin in January, 2017.

Jennifer Sharkey said that she went to a task force meeting regarding the Regional Trails Initiative and how projects could get funded under the umbrella. She said that the City of Fort Wayne, Allen County and the Fort Wayne Trails Group has put a package together to submit to the RDA and they are looking for letters of support from the other counties and regions for their project. Ms. Sharkey said if we submit a letter of support they will provide the same letter of support for our project. Lynne Liechty made a motion to approve the letter of support. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Ms. Sharkey stated that the deadline for the Community Crossings Grant was extended to Friday, July 29. She said that they are looking at submitting on seven (7) road projects and it is a 50/50 matching grant. She submitted the internal grant application for approval in the amount of \$845,000.00 with a local match of \$422,500.00 that will come from the LOIT Special Distribution. Lynne Liechty made a motion to approve the grant application. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Jennifer Sharkey said that she met with the City of Angola on the Emergency Vehicle Pre-Emption Project on June 29 to discuss the project. Ms. Sharkey said that the project was approved by the Commissioners in December, 2013. She said that there would be a device installed on the signals throughout the County and one would also be installed in the emergency vehicles so when they are on a run, they can activate the signal so it turns green in their direction, providing a greater level of safety.

Ms. Sharkey submitted a speed limit ordinance for approval. Donald Stuckey, County Attorney, said that he doesn't have any problem with it; however, it cannot be passed on three (3) readings due to one of the

Commissioners being absent. Jennifer Sharkey said that the ordinance that is currently in place, which was passed in 1973, states that there is a 50 mph speed limit on the County roadways with no posted speed. Donald Stuckey said that a complete traffic study would have to be done throughout the County and he doesn't believe that the old ordinance is enforceable because state law says 55 mph. Donald Stuckey said in order to clear things up, it may be beneficial to draft a document rescinding the old ordinance.

Jennifer Sharkey submitted Traffic Ordinance #2151, to install a stop sign on CR 120 N at CR 170 W which is in a subdivision on the north side of 100 N.

Ms. Sharkey also submitted Traffic Ordinance #2152, to reconfigure the traffic control on CR 900 W at Orland Road and CR 500 W. She said that currently the stop signs are on CR 900 W at the "S" curve and that was done in the past because 900 W was previously a gravel road and now that all roads are hard surfaces there is some confusion.

Ms. Sharkey also submitted Traffic Ordinance #2153, to add a stop sign on CR 112 N at CR 140 W which is also in the subdivision on the north side of 100 N.

Donald Stuckey stated that the Traffic Ordinances could be passed on the first readings. Lynne Liechty made a motion to pass Traffic Ordinances #2151, #2152 and #2153 on first reading. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Ms. Sharkey said that the ADA Coordinator Resolution needed to be updated so the County is in compliance with ADA Activities and the new GIS Coordinator, Zachary Mahan, needed to be specifically named. Jennifer Sharkey said that she has not spoken to Mr. Mahan about this; however, she plans to later this week. Lynne Liechty made a motion to approve Resolution 06-2016-01, naming Zachary Mahan, GIS Coordinator, as the new ADA Coordinator. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

RESOLUTION 06-2016-01

Amendment to Resolution 11-2012-02 & 05-2015-01
A Resolution of the Steuben County Board of Commissioners
of the County of Steuben, Indiana
Adopting the Americans with Disabilities Act (ADA)
ADA Coordinator and Procedures

WHEREAS, the Federal government enacted the Americans with Disabilities Act of 1990 (ADA) to prevent discrimination of the physically and mentally disabled relating to employment and access to public facilities; and

WHEREAS, in compliance with Title II of the ADA the County of Steuben shall name an ADA Coordinator; and

WHEREAS, in compliance with Title II of the ADA the County of Steuben shall adopt a grievance procedure for resolving complaints alleging violation of Title II of the ADA; and

WHEREAS, in compliance with Title II of the ADA the County of Steuben shall publish notice to the public regarding the ADA;

WHEREAS, in compliance with Title II of the ADA the County of Steuben shall post the ADA coordinator's name, office address, and telephone number along with the ADA Notice and ADA grievance process on its website.

NOW, THEREFORE, BE IT RESOLVED by the Commissioners of the County of Steuben, Indiana:

The Steuben County GIS Coordinator, Zachary Mahan, is designated as the ADA Coordinator for the County.

The Notice under the Americans with Disabilities Act, a copy of which is posted to the County's website, is adopted as the County of Steuben Notice under the Americans with Disabilities Act.

The County of Steuben ADA Grievance Procedure under the Americans with Disabilities Act, a copy of which is attached hereto, is adopted as the grievance procedure for addressing complaints alleging discrimination on the basis of disability in the provision of services, activities, programs or benefits by the County of Steuben.

In compliance with Federal and State laws as set forth above, the Steuben County Board of Commissioners resolves to post the required information regarding the ADA coordinator, Notice under the Americans with Disabilities Act, and County of Steuben Grievance

Procedure under the Americans with Disabilities Act on its website and at such other locations as may be determined from time to time.

PASSED, APPROVED AND ADOPTED this 5th day of July, 2016.

Ronald L. Smith, President
Lynne Liechty, North District

Attest:
Kim Koomler, Auditor

Ms. Sharkey updated the Commissioners on the Disaster Response Training that is available. Lynne Liechty made a motion to enable the necessary departments to attend the Disaster Response Training, if they have the funds available in their budgets. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Jennifer Sharkey stated that there is not another meeting scheduled for the 200 W. Beautification Project as of yet, but they spoke about the signage at their last meeting on June 29. Ms. Sharkey said that the continued surface improvements is one of the applications for the Community Crossings Grant, if awarded.

Emmett Heller, Highway Superintendent, reported that the paving went really well the past couple weeks. They have some driveways and berming to work on, but other than that the paving is completed.

Mr. Heller said that they are trying to get a berm machine in to use at Maple Street, but he's not sure if that will happen before the ribbon cutting.

Emmett Heller stated that he has four (4) trucks, two (2) Internationals and two (2) Volvos that he would like permission to trade in on the next three (3) Western Stars. He said that he has some paperwork that says how that will work and the amounts to be contributed. Mr. Heller said that at the same time, he would like to take that trade money and purchase a Ford F-550 to match the one the Highway Department already has. Lynne Liechty said that the Ford F-550 was not on the list of trucks to purchase as one had already been purchased in January, 2016. Emmett Heller said that this Ford F-550 was listed in the Highway Department's Truck Plan. Lynne Liechty asked if Emmett Heller received quotes, Mr. Heller said he did. Lynne Liechty said that she would like to see those quotes before they move forward on the Ford F-550. Commissioner Liechty stated that in order to follow proper procedure, all of those things have to be put forward to the Commissioners first as well as the quotes so the Commissioners can decide how to proceed. Lynne Liechty said that she does not remember the second Ford F-550 being in the Truck Plan. Mr. Heller said that he would provide that information. Lynne Liechty said that they were all aware of the Western Stars that were to be purchased. Commissioner Liechty asked if the four (4) trucks Mr. Heller is asking to trade, were going to be put toward the purchase of Western Stars. Mr. Heller said that the four (4) trucks are going to be traded in on three (3) Western Stars.

Emmett Heller stated that the full depth reclamation machine is working really well. Mr. Heller also said that they have been working on 1000 E and 500 S.

Mr. Heller stated that the two (2) employees that were in question have been terminated.

Erin Wray, Commissioners' Secretary, stated that in an email from Kim Gessaman, Highway Clerk, it was stated that a 2008 International VIN #4896 and a 2002 Volvo K32 VIN #9484 shall be traded in on a Western Star, new truck #48. Then a 2006 International 7400 VIN #3126 and a 1999 Volvo VIN #7865 shall be traded in on a Western Star, new truck #50. Ms. Wray pointed out that Mr. Heller's update then pointed out those four (4) trucks are to be traded in on three (3) Western Star's and then use the trade-in money on those four (4) trucks to purchase

the Ford F-550. Mr. Heller said that is not what he meant. Kim Koomler, Auditor, said that it has to be clarified for the record. Mr. Heller said that the four (4) trucks are being traded in on new trucks #48 and #50. Ms. Koomler said that on his explanation it said that he was using the four (4) trade in trucks on three (3) Western Stars. Mr. Heller said that they are purchasing three (3) new Western Stars; however, trade-ins are only being used on two (2) of the Western Stars.

Erin Wray asked for clarification of what money he was going to use for the purchase of the Ford F-550 since the trade-ins were being used on the Western Stars. It was determined that he planned on using the appropriated funds that he was not using on the Western Stars, for the Ford F-550. Kim Koomler informed Mr. Heller that he was co-mingling the funds meant for other trucks and it could not be handled this way. Ms. Koomler requested a meeting with Emmett Heller for further clarification.

Erin Wray stated that she is missing one (1) title, so a duplicate title will have to be requested. The title in question is for the vehicle with VIN ending in #3126. Ms. Wray stated that she has a copy of the title in question; however, it shows that it was sent to the Highway Department's address. The titles that Ms. Wray has in her possession for the Commissioners to sign are the 2008 International VIN #4896, 1999 Volvo VIN #7865 and 2002 Volvo VIN #9484. Lynne Liechty made a motion to trade the four (4) trucks requested for two (2) new Western Stars which will be truck #48 and #50. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Gary Fair, Community Center Maintenance, submitted a quote from Bush Concrete Products, Inc. for the Event Center handicap signs, posts and bases in the amount of \$3,682.50. Mr. Fair stated that three of the posts, bases and signs will be used for the new parking lot at the Community Center. Lynne Liechty made a motion to accept the quote from Bush Concrete Products, Inc and to approve having the check done out of the claims process so the county is not charged a credit card convenience fee. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Mr. Fair said that he has had three (3) estimates come in for the mats at the Event Center. He said hopefully all quotes will be in by Wednesday. Gary Fair said that renting mats may be a better option as the company will come in, take the mats and put clean mats down. Gary Fair said that we are not equipped for washing mats of that size.

Gary Fair said that he and Frank Charlton had a conversation regarding the striping on the concrete parking lot. Mr. Charlton suggested that since the circle drive goes around the concrete, if someone was to turn the vehicle into straight on parking, it would be difficult. It was suggested to angle the striping at a 7 degree angle so it would be easier for the driver. Gary said that the north side of the building would be fine if left at the 90 degree straight on parking. Lynne Liechty made a motion to approve changing the parking striping to a 7 degree angle. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Frank Charlton thanked Gary Fair and Rick Meyers for helping unload the new tables and chairs at the Event Center. Mr. Charlton said that they had to get a Bobcat and a pallet jack to assist. Mr. Charlton said that the tables and chairs will take up about 2/3 of the storage space.

Gary Fair reported that he is trying to get numbers around for the cleaning of the bell tower/Old Jail and the repairs that need to be done there and at the Courthouse. Gary Fair said that there is a considerable amount of repairs that are needed to the bell tower/Old Jail. He said that they have run into an issue with the verticals around the doors and windows have rotted away and perhaps it would be best to vinyl side that instead of wood side it. Kim Koomler asked if that could even be done because of it being on the historical registry. Donald Stuckey said that he doesn't think it would be an issue with the Historical Society.

Mr. Fair stated that there is a large tree in the Courtyard that is dropping sticks into the Courthouse chiller and should be removed. He received one quote from Sevits Tree Service in the amount of \$1,350.00 to cut down the tree, clean up and remove the stump. Lynne Liechty made a motion to approve the quote from Sevits Tree Service. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Gary Fair said that he spoke with the MSD and they informed him that they are getting ready to resurface their parking lots. Mr. Fair said that there is a grading issue in that area and he thinks this would be a good time to fix that issue so the water doesn't run toward the building anymore. He has not yet gotten numbers on that project, but he wanted the Commissioners aware. Lynne Liechty made a motion to approve the project, pending receiving numbers. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Ronald Smith stated that the purchase paperwork on the MSD Tower has not yet been received and until that paperwork is received their work should be pending. Commissioner Smith stated that the paperwork is due back to the Commissioners and until that happens, they do not have ownership over the MSD Tower. Donald Stuckey stated that he will contact Kim Shoup regarding the paperwork.

Tami Sumney, IT Director, submitted a quote from Civitas-IT for new computers, in the amount of \$50,762.00, to be paid from the 2013 Bond. Lynne Liechty made a motion to approve the quote from Civitas-IT. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Ms. Sumney also submitted a quote from ENS for the Event Center fax machine adapter, in the amount of \$257.97. Lynne Liechty made a motion to approve the ENS quote for the Event Center fax machine. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

Randy Brown, EMA Director, stated it was brought to his attention that Brent Shull, Town of Hamilton, discovered that their tornado sirens were not working. Mr. Brown said that he needs to figure out who the actual owner of the sirens are. He also said that there was a non-written agreement made when they were installed that the former town planner would take care of the maintenance of the sirens. Mr. Brown said that the County owns some of the sirens; however, other sirens are not owned by the County but the County covers the maintenance.

Mr. Brown also reported that he will be at the next LEPC meeting at the Event Center on July 20, 2016, at 10:00 a.m. Mr. Brown said that he will be meeting with the Fort Wayne Bomb Squad and the Fremont Fire Department on Friday, July 8.

Randy Brown stated that there is an issue with the EMA Tahoe. Mr. Brown said that the back hatch doesn't seem to work. Commissioners recommended that he take it to Harold's to get it looked at and fixed.

Ronald Smith requested that before the invoice is paid for the Event Center flooring, that a letter be sent to Mr. Berlew with Northern Industrial Flooring, requesting a meeting so they can have a discussion regarding what the Commissioners thought they were getting and what they actually received in the finished product.

Kristi Bachman, CASA and Judge Allen Wheat, Circuit Court Judge, submitted a request to the Commissioners to have the CASA office rental fee waived for 2017. Lynne Liechty made a motion to approve waiving the office rental fees for CASA. Ronald Smith seconded that motion and the motion carried with two (2) ayes.

The Commissioners received the following correspondence: IN.gov re: Budget form changes for 2017 budgets; Dave Koenig re: Orland Ribbon Cutting; Miguel Trevino-DLZ re: DLZ named Design firm of the year by engineering news record; EDC re: You're invited July 13th; Subscriptions IN.gov re: Indiana Bicentennial Torch Relay torchbearer names, uniforms announced; IN.gov re: OCRA Announces Downtown Enhancement Grant Application Availability; IN.gov re: June 27 email from Commissioner Schaafsma; IN.gov re: Media Advisory: Indiana Bicentennial Torch Relay Press Conference; Indiana Dept of Agriculture re: ISDA announces Indiana Grain Buyers and Warehouse Licensing Agency Promotions; DHS re: Firework laws Hoosiers need to know; IN.gov re: OCRA and IHCD Capacity Building Training; DHS re: Fireworks laws; IN.gov re: OCRA announces 2016 Indiana Main Street Community Exchanges; NEIndiana re: News Release; IN.gov re: 2017 Budget Calendar Updated; IACC re: OCRA and IHCD Capacity Building Seminar; State of Indiana re: Local Match for the Local Road and Bridge Matching Grant Fund.

STEUBEN COUNTY BOARD OF COMMISSIONERS
